**WHO WE ARE**

- **SEA ME DIVE** has served the Florida community since 2004.
- We are continuously training on technologies addressing adverse weather and rising sea levels both in construction and commercial diving.
- We provide cutting edge solutions for stability and longevity of seawalls and docks.
- We are available 24/7 for all underwater emergencies.
- Our clients are always happy with our comprehensive solutions and services.
- Our work is solid, we guarantee all our projects regardless of their size.
- We document all our projects daily with video and digital photos.

**WHAT WE DO**

- Inspection & repairs for all seawalls, docks, bridges and near water structures.
- On water concrete restorations.
- Construction of seawall footers, cap heightening and retaining walls.
- Commercial diving services and underwater solutions.
- Underwater cutting and welding.
- Underwater maintenance of lock systems and drydocks.
